

MyInternetBusiness Platinum Member Tim Wright Unveils the Power of Darren Gaudry's System

Tim Wright of the top-earning WrightMentors training team discusses the hard-to-find details about Darren Gaudry's newly-launched system, 'MyInternetBusiness'.

The internet marketing community is buzzing over the recent release of Darren Gaudry's release of MyInternetBusiness, which has been heralded by many experts to be 'the most highly-anticipated launch since Google'. Today we interviewed Tim Wright, a Platinum-level member of MyInternetBusiness and part of the WrightMentors training team.

Prior to its launch, few actual details were known about MyInternetBusiness. Mr. Wright commented that 'Most people realize that a lot of people have become millionaires through internet marketing, but very few actually believe that THEY themselves are capable of it. MyInternetBusiness is a high-tech, multi-media training system that is designed to provide people with the tools, the software, the mentoring and, most importantly, the Mindset that will allow them to achieve massive wealth working online; something that the majority of internet marketers fail to achieve.'

When asked about the products in MyInternetBusiness, Mr. Wright explained, "Each of the four different levels of ownership within MyInternetBusiness come with their own products, which include Digital products, an exclusive travel club, the NetMillionaire audios, as well as physical products. The digital products include a huge portfolio of premium internet marketing software selections and a library of educational e-books that teach users, step-by-step, all aspects of the internet marketing industry. The sheer volume of selection is ideal for both novices and veterans alike.'

We then asked Mr. Wright about the physical products, and learned that his personal favorite is the The Net Millionaire Training System , a unique board game/training package which encourages the users to have fun while learning about online wealth-building strategies. 'We all know that making money is fun,' Mr. Wright said laughing, "This product lets you have fun while you're LEARNING HOW to make money. It's a great way to learn for the whole family. It's similar to Robert Kiyosaki's popular Cash Flow Quadrant game where you're having fun but, without even realizing it, you're also getting a million dollar education.'

The list of exclusive products offered by MyInternetBusiness is being added to almost daily. At the Platinum level, members have access and resale rights to approximately \$65,000 worth of products, many of which are exclusive to MyInternetBusiness and unobtainable anywhere else.

Commenting on the video-tutorials and live trainings that are available through the

MyInternetBusiness back office, Wright stated, 'Darren Gaudry and his team have tried to make this system as foolproof as possible. All the tools you could want are included...but it's critical to have someone who knows how to use these tools to walk you through the process and teach you how to use them. That's where the WrightMentors training team comes in.'

The WrightMentors training team is a group of top-earners and leaders who provide free training and marketing services to their members. Mr. Wright revealed that they provide a variety of training resources including professionally-designed webpages, email campaigns and even closing services. 'Yes, we will actually call our members' interested prospects to close the sale and get them started.' MyInternetBusiness also provides closing services through professional assistants specifically trained to close sales for members

'One of the main things,' explained Wright, 'is helping our members to develop Daily Method of Operation that walk them through step-by-step what actions to do each day to succeed in their business.'

Mr. Wright emphasized in closing, 'While MyInternetBusiness is an incredibly powerful multi-revenue business opportunity, you need to make sure that you join with an experienced mentoring team like ours that will take the time to make sure you are successful.'

Mr. Wright can be reached for further comment at the address below.
